

ATHLETIC DEVELOPMENT PROGRAMME

Build Capacity

Be Robust

Injury Reduction

- By preparing our bodies to withstand the physical demands placed upon it
- Through improved movement control

Be Adaptable

Movement Diversity

- To deal with every scenario
- To be creative on the court

The Programme

Overall Aims

- Develop a vast range of movements transferable to basketball
- Enhance coordination, stability and movement control required in basketball
- Increase muscular strength in muscle groups important for basketball performance
- Build your vertical jump!

Master your body

This 4 week block takes you back to basics, working on flexibility and stability. This is a must to maintain good movements throughout your life.

Programme outline

- Complete each of the three sessions once per week with 48-72 hours between sessions. For example, Monday, Wednesday, and Friday.
- All exercises have accompanying demonstration videos

Increase your vertical - Jump rope warm-ups

Perform the following as a circuit
(with or without a rope)

- Double Leg x 20 s
- Side to Side Jumps x 20 s
- Split Jumps x 20 s
- Out and In Jumps x 20 s
- Hip Twist Jumps x 20 s
- Single Leg Jumps x 20 s each leg
